- High white matt surface for minimum light reflection on images
- Good flex-crack resistance
- High colour density and excellent colour reproduction
- High dot and line sharpness
- One side inkjet coated paper with reverse treatment

## PRINTER COMPATIBILITY CHART

Printer and driver settings may need careful calibration to ensure optimum performance. Ink loads need to be calibrated for the combination of the printer and ink being used.

MANUFACTURER	MODEL	INKS
--------------	-------	------

Whilst each and every one of our products is rigorously tested across all leading printers and with every major manufactured ink, it is always advisable to consult with your Papergraphics' account handler to optimise media performance and to make sure that you get the best results every time.

## APPLICATION NOTES

The minimum application temperature is +5°C. The service temperature range is -10°C to +50°C.

## STORAGE AND TRANSPORT

The ideal storage conditions for this product are 33-65% relative humidity with temperatures of +10°C to +25°C. We recommend that you always keep this product in its original packaging.
