## PRINTER COMPATIBILITY CHART

Printer and driver settings may need careful calibration to ensure optimum performance. Ink loads need to be calibrated for the combination of the printer and ink being used.

## MANUFACTURER MODEL INKS

Whilst each and every one of our products is rigorously tested across all leading printers and with every major manufactured ink, it is always advisable to consult with your Papergraphics' account handler to optimise media performance and to make sure that you get the best results every time.

## APPLICATION NOTES

The minimum application temperature is +5°C. The service temperature is -20°C to +90°C.

## STORAGE AND TRANSPORT

The ideal storage conditions for this product are 33-65% relative humidity with temperatures of +10°C to +25°C. We recommend that you always keep this product in its original packaging.
